G-Motion 12 Volt Full Media Centre System

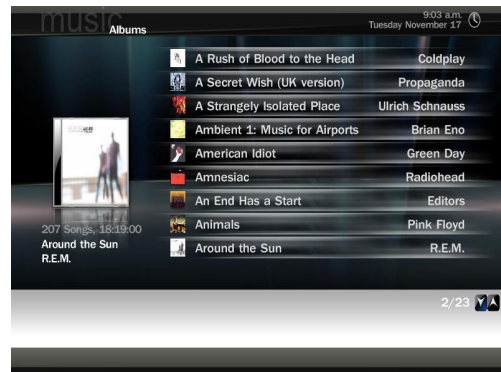

Home Screen

My TV

My Videos

My Music

The G-Motion Media Centre is a full media solution based on a 12 volt DC PC system. It allows full TV functions as well as movie, music and picture storage eliminating the need for the clutter of CDs/DVDs plus displays full media info on movies and music for ease of use. It incorporates a FreeView satellite tuner card for full Freeview viewing, recording and time shifting. Full EPG (Electronic Program Guide) is displayed allowing easy record scheduling and viewing. It also allows multi channel recordings! All functions are accessed through one remote control for total simplicity. A massive 1TB hard drive will fit hundreds of movies as well a recorded TV. All in a small form factor box measuring 202x97x273 mm and drawing only 24 watts from your power system.
